OBJECTIVE

Motivated and results-driven Web Designer seeking a challenging position in a dynamic organization. Offering a strong foundation in user-centered design, responsive design, and front-end development, with a proven ability to create engaging, functional websites and collaborate effectively within cross-functional teams.

KEY COMPETENCIES

- Web Design & Development
- Responsive Web Design
- User Experience (UX) & User Interface (UI) Design
- HTML, CSS, JavaScript
- Design Tools: Adobe Photoshop
- Website Optimization & Performance Improvement
- Strong interpersonal skills
- Proactive and self-motivated
- Exceptional organisational skills

PROFESSIONAL EXPERIENCE

Freelance web designer

November 2024 - Present

- Designed and developed responsive websites tailored to client needs, with a focus on clean UI/UX design.
- Utilized HTML, CSS, and JavaScript to ensure mobile-friendly, fast-loading websites.
- Collaborated with clients to gather requirements, set timelines, and provide design feedback.
- Delivered high-quality websites within project timelines and budget constraints.

PROJECTS

Recipe Wonderland - college project

- Worked on designing and developing a website for a recipe-sharing platform, where users can browse, submit, and rate recipes.
- Used HTML5, CSS3, and JavaScript to create an interactive front-end interface.
- Integrated a simple CMS to manage user-generated content and improve the site's scalability.

Aulora Website

- Designed and developed the website for Aulora, a fictional brand (or real, if applicable), using HTML, CSS, and JavaScript.
- Focused on creating an elegant and modern design to reflect the brand's premium aesthetic.

The Brew Estate Website

Developed a responsive website for The Brew Estate using HTML, CSS, and JavaScript, featuring an interactive UI and dynamic menu to showcase offerings. Focused on branding with cohesive color schemes, typography, and images for an enhanced user experience across devices.
